Nutrition for Life, Books a la Carte Edition (3rd Edition)

Janice J. Thompson, Melinda Manore

Nutrition for Life, Books a la Carte Edition (3rd Edition) Janice J. Thompson, Melinda Manore
This edition features the exact same content as the traditional book in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value for your students—this format costs 35% less than a new textbook.

Nutrition for Life capitalizes on students' natural interest in nutrition by demonstrating how it relates directly to their health and daily lives. This book is unique among introductory texts in its presentation of nutrients based on function, rather than chemical classification. Within the vitamins and minerals chapters, micronutrients are organized by their various functions within the body (such as tissue guardians, antioxidants, energy generators, essential electrolytes, mineral power plants, blood fortifiers, bone builders), enabling students to think about them conceptually while also understanding their basic roles in the body. This discourages rote memorization and promotes fuller and more accessible understanding of each micronutrient's importance. For those instructors who still want their students to understand the traditional chemical organization, the micronutrient chapters include detailed tables and overviews of water-soluble and fat-soluble vitamins, and the trace and major minerals.

This package contains:

- Books a la Carte for Nutrition for Life, Third Edition
