How to Start Your Own Coven: The Magic of Wicca and Witchcraft Astraeus Ember Song

This book is intended for the solitary witch who is ready to take the next step in their magical journey and start a local coven. You will be given examples of the inner workings and decisions of how a successful coven runs, as well as a detailed walk-through and explanation of how to conduct a full-moon ritual, complete with examples. Unlike other basic books on Wicca and Witchcraft, the author doesn't waste a lot of pages defining the same basic terms and vocabulary that every other book on the subject does. This book gets straight into realistic and practical examples of decisions you'll need to make, as well as clear and concise descriptions of what you need to do to get your coven off the ground today. All of this with a lot of room for personalization, so that when all is said and done, your coven is not simply a clone of the one described in the book or of any other one, but something unique to your vision of how you want to practice the Craft. Written by a real witch, working in a real coven with decades of real experience.
