A Basic Course in Geometry - Part 2 of 5 (Volume 2) Bill Lembke

A Basic Course in Geometry is a high school and college level textbook that is designed for everyone with an interest in geometry. It is filled with clear and concise definitions and examples of basic to complex concepts. The 2013 edition of this widely used textbook includes 461 figures, 150 tables, and a 722 term glossary. To assess student understanding, there are also 13 chapter tests and a final exam. The structure of this textbook and the ABC Method of Instruction will allow you to successfully learn geometry. A willing and motivated student can be taught any subject. Geometry is a branch of mathematics which studies spatial relationships and spatial structures. It is concerned with the properties and relationships of points, lines, angles, curves, surfaces, and solids. As geometry is a highly visual subject, almost every concept or problem is accompanied by a figure or table. This textbook is a basic course in geometry. It assumes the student has little or limited knowledge of geometry, which means terms and concepts are explained before they are extensively used. It starts with basic concepts, and then builds upon them to develop more complex ideas. Each of the chapters, 1-13, explains a group of related geometric topics with detailed descriptions and examples. There are 13 chapter tests. Chapter 14 is the comprehensive final exam. Appendixes and an index follow Chapter 14. The chapters of this textbook are as follows: Chapter 1 – Concepts and Standards; Chapter 2 – Angles; Chapter 3 – Polytopes; Chapter 4 – Polygons; Chapter 5 – Triangles and Quadrilaterals; Chapter 6 – Polyhedron; Chapter 7 – Polyhedron Solids – Part 1; Chapter 8 – Polyhedron Solids – Part 2; Chapter 9 – Two Dimensional Non-polytopes; Chapter 10 – Three Dimensional Non-polytopes; Chapter 11 – Spherical Geometry; Chapter 12 – Geometric Constructions; and Chapter 13 – Geometric Proofs. Geometry is a fun type of mathematics. You will learn many new and interesting things during this geometry course. Are you ready to begin your educational journey? When you turn to the first chapter, your journey will begin. Cover design: Sunrise – Each day brings opportunities to learn something new. Let today be the beginning of your journey on your path to enlightenment and self-actualization. Note: A Basic Course in Geometry is printed in five parts. You must purchase Part 1, Part 2, Part 3, Part 4, and Part 5 separately. Together, they make a complete geometry textbook!

From reader reviews:

Stephen Williams:

Now a day folks who Living in the era where everything reachable by connect to the internet and the resources included can be true or not demand people to be aware of each data they get. How a lot more to be smart in acquiring any information nowadays? Of course the answer then is reading a book. Studying a book can help men and women out of this uncertainty Information especially this A Basic Course in Geometry - Part 2 of 5 (Volume 2) book because book offers you rich info and knowledge. Of course the details in this book hundred pct guarantees there is no doubt in it you probably know this.

Elizabeth Hart:

The reason why? Because this A Basic Course in Geometry - Part 2 of 5 (Volume 2) is an unordinary book that the inside of the publication waiting for you to snap that but latter it will surprise you with the secret this inside. Reading this book close to it was fantastic author who also write the book in such incredible way makes the content interior easier to understand, entertaining technique but still convey the meaning totally. So , it is good for you because of not hesitating having this ever again or you going to regret it. This book will give you a lot of benefits than the other book have got such as help improving your ability and your critical thinking approach. So , still want to delay having that book? If I were being you I will go to the book store hurriedly.

Robert Brown:

A Basic Course in Geometry - Part 2 of 5 (Volume 2) can be one of your nice books that are good idea. Many of us recommend that straight away because this book has good vocabulary that can increase your knowledge in terminology, easy to understand, bit entertaining however delivering the information. The article writer giving his/her effort to put every word into enjoyment arrangement in writing A Basic Course in Geometry - Part 2 of 5 (Volume 2) although doesn't forget the main position, giving the reader the hottest and also based confirm resource info that maybe you can be certainly one of it. This great information may drawn you into completely new stage of crucial imagining.

Donald Chen:

In this time globalization it is important to someone to obtain information. The information will make someone to understand the condition of the world. The fitness of the world makes the information simpler to share. You can find a lot of sources to get information example: internet, paper, book, and soon. You can observe that now, a lot of publisher that will print many kinds of book. Often the book that recommended for your requirements is A Basic Course in Geometry - Part 2 of 5 (Volume 2) this book consist a lot of the information of the condition of this world now. This particular book was represented how can the world has grown up. The vocabulary styles that writer use to explain it is easy to understand. Often the writer made some study when he makes this book. Here is why this book suitable all of you.
