The Science of Getting Rich: with The Science of Being Great Wallace D Wattles

DO YOU WANT A SCIENTIFIC PROVEN SYSTEM FOR FINANCIAL SUCCESS. The secrets in this book were so powerful that many believe it should never be published, using the secret teachings of the Hindu scriptures, its author learned the secrets of the law of attraction by controlling the powers of the universe to generate wealth. The Science of Getting Rich preceded similar success books such as The Master Key System by Charles F. Haanel and Think and Grow Rich by Napoleon Hill . In the 100 years since its publication, it has been credited with the success of hundreds of millionaires. The Science of Getting Rich was credited by Rhonda Byrne as one of the inspirations for her popular 2006 film and 2007 book The Secret. As Byrne explained it on the web site of Oprah Winfrey, "Something inside of me had me turn the pages one by one, and I can still remember my tears hitting the pages as I was reading it. It gave me a glimpse of The Secret. It was like a flame inside of my heart. And with every day since, it's just become a raging fire of wanting to share all of this with the world." The book is included in personal development scholar Tom Butler-Bowdon's list of "50 Success Classics" in his 2004 book of that name. The book comes with another classic book The Science of Being Great, the guide to becoming a charismatic leader of men.
