Eyes of the Tiger: A novel of the S.A.S. based on real-life adventures of real heroes during the Second World War.

Every tiger has a white spot on the back of the ear. This helps the young tiger cub ward off predators approaching from behind, because the spots resemble eyes. The adult tiger preparing to attack will twist its ears so the “eyes” face forwards. The eyes of the tiger mean imminent death...

1940, and desperate times for Britain: A young Welshman joins the Paratroops and lands in North Africa. Recovering from wounds, he is recruited into the elite Special Air Service, whose job is to reconnoitre behind enemy lines. Blooded in the killing zone of Monte Cassino, they knock out a Tiger Tank at point blank range, and fight in the Yugoslav mountains. After rescuing a French Admiral from the Gestapo, they play a key role in the invasion of the South of France. Sent to Athens to help restore stability, the S.A.S. become involved in the murderous Greek Civil War.

The real-life dramas, desperate combats and comic interludes experienced by these brave men.

Lest we forget what we owe to these heroes.
